ABOUT ME

I am a WordPress developer and SEO specialist with experience in creating and optimizing websites. I build clean, responsive, and easy-to-use websites in WordPress. I also work on SEO to improve search rankings and bring more visitors. My goal is to deliver websites that look professional, work smoothly, and help businesses grow online.

EDUCATION

The Islamia University of Bahawalpur | 2021 – 2025

Bachelor of Science in Computer Science
Completed a degree in computer science with a focus on WordPress development, front-end web development, and SEO. Gained hands-on experience through projects involving website building, design, and improving technical and problem-solving skills.

G.H.S School Faqirwali| 2021

Intermediate in Computer Science
Completed intermediate studies in computer science and mathematics. Gained basic knowledge of programming and computers, which prepared me for higher education.

WORK EXPERIENCE

Bytevex | 2023-Present

SEO Expert
Optimize website to improve search engine rankings and increase traffic. Conduct keyword research, on-page SEO, and content optimization. Monitor website performance and implement strategies for better online visibility.

Freelancer| 2024-Present

WordPress Developer
Build and maintain WordPress websites for clients with clean and user-friendly designs. Customize themes, manage website content, and ensure responsive layouts. Provide basic SEO support to improve website visibility.
